Time To Clarify - Why The US Never Signed The CRPD from 2006 <enable@un.org>

Note: the original document is written in 2006 and the Obama administration signed the documents into action in the United States of America in 2009 so why do we act like it's not signed?

https://www.americanbar.org/advocacy/governmental_legislative_work/priorities_policy/promoting_international_rule_law/conventionontherightsofpersonswithdisabilities/

Status

In July 2009, President Obama signed the CRPD. The Administration transmitted it to the Senate for advice and consent to ratification in May 2012. The Senate Committee on Foreign Relations (SFRC) held a hearing on the Convention in July 2012 and later that month reported the treaty

favorably to the full Senate by a vote of 13 in favor and 6 against, subject to certain conditions.

Disability Rights Advocacy - #HugeFail Feb 7 2023 - Doctor--Patient Relations - WTF! - #HIVUntreatable - I told you so - David Aguilera <daguilera@rollingstart.com>

See attached : Rolling Start Disability Advocacy - already has failed on February 7th 2023.

A doctor's appointment set up with a tether connection to advocacy by phone,

To this doctor once again supposed to be my HIV care doctor. 3 years ago I placed onto the record something that needs to be accepted and acknowledged and processed

<https://npino.com/npi/1851498729-sudhakar-v-mallela/>

There is a commenting tool enabled on that page powered by @Disqus - every aspect that I can put into place fails.

Impose myself upon my own need to impose myself on my own needs.

I have the right to a suicide.

If you all cannot figure it out and help me finally please.

This message cannot be ignored this email cannot ignored this communication cannot be ignored this correspondence cannot be ignored this cannot be ignored this cannot be ignored.

Again there is absolutely no reason to block my contents because my content does not violate any kind of terms of service on your site. If you're going to try to flag my post again because you have to try to cover up a conspiracy..

That's your responsibility to fix not my responsibility to be subject to being violated over and over and over again.

I got two hugs on a post that is very much standing rules here on this site. I have unjustified suspensions on my prior accounts over and over and over and over and over and over and over you all will not have a conversation about this discussion about this topic that it needs to be fixed.

The post that I have hugs on seems to go missing and with result:

This content has been marked as possibly breaking our [community guidelines](#). myHIVteam will review this as soon as possible.

Restore My Content Post.

By it's having it being fact only goes to serve to continue invalidate my voice and to further complicated reassures that it's never going to be fixed.

RESTORE MY POST!!

' I'm never going to get this fixed!  I'm never going to get this fixed!  I'm never going to.....!'

Attached is an image of actual 911 text interface. At the top of this screen snapshot, there's a comments into 911 which means it's a actual communication channel that would be a crime to commit a deception intentionally upon law enforcement after all within this channel of communication. It would be a crime to deceive law enforcement.

I'm not deceiving law enforcement and the note says,

All you have to do is listen to the audio.

Do I need to actually file a law suit of some kind against MyHivTeam as a measure that you are discriminating against me specifically.

You will be named in a defendant about who has done this to me. Nobody willing to step forward and have a conversation.

The reference audio is located here:

An defined URL path named (Absolute):

<http://realityaudit.life/Medical-Mental-Health-LawMatters-StandardsOfCare/GruwupGHome-ShakenBrokenNeverAbleToRecover/WhatsApp/Group/HatesNeverGonnaHappen----JustAWingDingFantasy-PromisesDashed--HobbsProof-Feb252023--LawsOfNature-Bonded-PeacelsNotPossible-FactProven/Saturday%20February%2025th%202023-002.ogg>

Within that audio is referenced two other audio presentations that posted on to SoundCloud.

When you get this right now stop just stop stop look and listen to me very carefully. I am dying. I'm dying from HIV when I should not be dying. The circumstances are dire and grave. You all cannot treat me like this. You all cannot just ignore my communications. You all cannot excommunicate me from the society at Large. That is what you all have done to me. As unfathomable as it might seem to others. In this country this is not very common to consider. But in other countries on a world story front that would be in the United Nations... There are examples of this on a worldwide front that happened in other countries. Upon a person.

This is not an unfathomable situation when you to a possibility to probability that you are actually involved MyHIVteam and Foothill Aids Project (among others).
Into a greater conspiracy.

You are guilty.

Restore my post!

Be cautious about suspending my account when there's no reason to suspend my account. My prior accounts have been sacrificed this one will not. It will be an unconditional default that this account gets suspended I'm going to court.

I'm providing to the record the current narrative of the MyHIVTeam Story Section.

I will update this like I had the other profile with the treatments section which has a timeline.

That time will timeline will show the timeline that I was unable to get access to medicine and treatments because of this problem it will show on this profile social media site this window of time that was unable to get Dr care which is continued into this day...

That is my right to use this social media platform for which is purpose for.

I have an intentional deceptive practice to suspend any of my ability to have a voice in this matter. I am very careful not to violate the term there are people who are on this site who automatically flag these kind of posts. These are caretakers of our social media on a status quo. I'm telling you there are agents of Doom out here doing this sagging me causing me to have my account suspended. Causing me grief.

My story is the truth the whole truth and nothing but the truth.

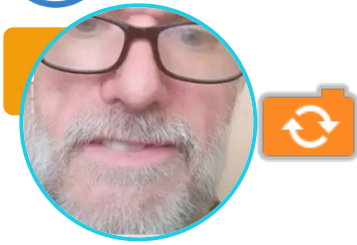

Anybody who reads my story would realize that it's probably the case I am very accurate to my detail and I'm very keen on when those people who are out on the web attack this detail.

I remain in a vulnerable state of being attacked by the community at large the society at large and individuals who are somehow activated to attack me in my attempt to bring forward this truth.

I will die first before I sit down and shut up..

Do not do not do not suspend my accounts and do not flag my post as a violation of terms when they're not..

Hi all,

my

PEN NAME is James Martin Houser.

Houser is not my real last name.

I'm not hiding my real last name.

I will put my real last name in the end.

Houser refers to the word housing

I live in San Bernardino, CA

My name continues. .

Driskill.

I currently live in the house that I grew up in since I was age 5.

I am now h57.

.My diagnosis for HIV was in 1999.

That means I am a long-term survivor of HIV as they call it.

I would like to learn more about Treatments, Living with HIV, and HIV Information.

I'm happy to meet everyone in the myHIVteam community!.

Upon login I selected all of the San Bernardino and Riverside profiles that were showing up in this app as my supportive Network.

There is an issue here extreme.

My prior accounts on my HIV team have been suspended.

Only because I have tried to interface customer support for a matter dire.

I have had a recent blood test results of a CD4 / cd8 ratio value

0.25

As we all know 1.0 is the marker. Above 1.0 is normal. Below 1.0 is abnormal.

Actually we were told all of this time that anything under one is a catastrophic failure of HIV treatment

How I got this way is a story of truthfulness.

Before I get there.

I would like to share with you the

NPI record of my current assigned HIV doctor

He is in Riverside California.

On the site of

NPINO.COM

PROFILES ON THAT SITE HAS THE ABILITY TO USE A COMMENTING TOOL KNOWN AS @DISQUS. PRONOUNCED DISCUSS.

It was 3 years ago when those comments were made.

That was my first encounter to have attempted a doctor/patient trust relationship.

What happened 3 years ago and what has happened in most recent weeks of 2 weeks ago.

A catastrophic failure of trust

I will explain.

Q

Most days I find myself...

I wake up to a day light daylight daylight nightmare

Not a single day goes by that it is not a living nightmare

Given what I know now, I recommend...

You don't want to hear this HIV team you don't want to hear this

You're going to suspend my account again because you can't handle the truth.

Because I post the truth I am suspended from services on my HIV team.

I recommend that you do not contact my HIV team support for any reason whatsoever if you have something truthful to say.

My life has changed in this way...

Diagnosis?

Where is my profile that I have had longstanding attached to my real name on this site?

When I'm having a bad day, I like to...

It is about to begin a plan for suicide when I'm having a bad day I'm going to start planning a suicide.

I suggest highly that anybody who is reading this reach out to SoundCloud

Open a SoundCloud audio. Immediately now listen to a 30 minute SoundCloud audio if they are concerned about suicide the mention of the word suicide

SoundCloud account:

Facts Don't Lie : Hated On : I Died : By Suicide

There are two posted audios.
