Dear SoundCloud:

The situation that I am introducing here to you is important for you to realize that you are owned by Google.

Over the past many years I have attempted to address this matter with Google in itself.

That's been using feedback across the web and all sorts of different mechanisms to get communications into Google's perspective.

However that may be and whatever those were piece by piece by piece I'm telling you right now that somebody is going to have to do something this time.

There is no way to explain this in a small detail. This is a complex issue a very complex matter that puts this into the preliminary capture of what we should do to step forward into this view of reality.

This is a cross posting in three subject threads. It is requested that you read all threads complete before you respond..

Subject Thread 1 of 3:

Re: EricYMHT and Ron6 sent you a hug

Time To Clarify - Why The US Never Signed The CRPD from 2006 <enable@un.org>

Note: the original document is written in 2006 and the Obama administration signed the documents into action in the United States of America in 2009 so why do we act like it's not signed?

https://www.americanbar.org/advocacy/governmental_legislative_work/priorities_policy/promoting_international_rule_law/conventionontherightsofpersonswithdisabilities/

Status

In July 2009, President Obama signed the CRPD. The Administration transmitted it to the Senate for advice and consent to ratification in May 2012. The Senate Committee on Foreign Relations (SFRC) held a hearing on the Convention in July 2012 and later that month reported the treaty favorably to the full Senate by a vote of 13 in favor and 6 against, subject to certain conditions.

Disability Rights Advocacy - #HugeFail Feb 7 2023 - Doctor--Patient Relations - WTF! - #HIVUntreatable - I told you so - David Aguilera <daguilera@rollingstart.com>

See attached : Rolling Start Disability Advocacy - already has failed on February 7th 2023.

A doctor's appointment set up with a tether connection to advocacy by phone,

To this doctor once again supposed to be my HIV care doctor. 3 years ago I placed onto the record something that needs to be accepted and acknowledged and processed

<https://npino.com/np/1851498729-sudhakar-v-mallela/>

There is a commenting tool enabled on that page powered by @Disqus - every aspect that I can put into place fails.

Impose myself upon my own need to impose myself on my own needs.

I have the right to a suicide.

If you all cannot figure it out and help me finally please.

Subject Thread 2 of 3:

What is happening? Something there happening!

This message cannot be ignored this email cannot ignored this communication cannot be ignored this correspondence cannot be ignored this cannot be ignored this cannot be ignored.

Somebody can figure it out because it's not rocket science.

It's difficult to wrap your mind around I agree but it's not hard to understand that humans have done so many better and wiser things with our technology and our priorities.

We went to the moon after all and that was the decade that I was born.

There's certain aspects about this.. that I was born in 1965. But I'm going to die here very soon.

Because nobody seems to be able to wrap their head around something and respond professionally.

I have two people on the hook right here and now today that should respond to me properly.

That would be the websites and the purpose for which their interfaces are involved into my progression of HIV disease.

MyHIVTeam.com

And

Foothill Aids Project
Southern California Regional
San Bernardino Specific
Ryan White Care Act
501(c) Aids Services Organization
[Http://fapinfo.com](http://fapinfo.com)

I have an account that I have created on SoundCloud that is an absolute truth.

My question on to SoundCloud customer support here is whether or not original spoken work narratives are considered published work. And I do believe they are. So there is a matter to which it becomes a published work that puts it into the view that it is not just material or information that is contained in a personal library. The material is put into the view of being published.

ref:

The Library Journal :
November 1st 1987

 Personal Information Systems the Library Role.pdf	2013-03-05 06:48	1.1M
 PersonalInformation SystemsTheLibraryRole(1).mp3	2017-03-07 11:22	1.1M

There is no way to intentionally create an informational quarantine against my ability to bring forward into civil society these matters that are dire and grave. And by silence and deception maintains such an informational quarantine.

For all of these many years now, that is exactly what has been done to me.

I question persons attempt at dialogue when they can't have a conversation and have to shut me out immediately like some sort of bully who can't seem to understand this is an absolutely fatal health matter condition.

It is not right never will be right to carry on without offering me my rights back into view. These are my basic human rights that were declared in the late 1940s.

Specifically being violated.

<https://www.un.org/en/about-us/universal-declaration-of-human-rights>

Article 19

Everyone has the right to freedom of opinion and expression; this right includes freedom to hold opinions without interference and to seek, receive and impart information and ideas through any media and regardless of frontiers.

Article 25

1. Everyone has the right to a standard of living adequate for the health and well-being of himself and of his family, including food, clothing, housing and medical care and necessary social services, and the right to security in the event of unemployment, sickness, disability, widowhood, old age or other lack of livelihood in circumstances beyond his control.
2. Motherhood and childhood are entitled to special care and assistance. All children, whether born in or out of wedlock, shall enjoy the same social protection.

Among other rights....

And then we have the convention for the rights of persons with disabilities.

Specifically article 12 on legal capacity.

This is where it becomes intersect with the Federal governments administration of our healthcare and particularly my HIV disease.

<https://www.cdc.gov/ncbddd/disabilityandhealth/disability-inclusion.html>

Disability Inclusion

Disability Inclusion:

Making sure everybody has the same opportunities to participate in every aspect of life to the best of their abilities and desires.

What is Disability Inclusion?

Including people with disabilities in everyday activities and encouraging them to have roles similar to their peers who do not have a disability is disability inclusion. This involves more than simply encouraging people; it requires making sure that adequate policies and practices are in effect in a community or organization.

Inclusion should lead to increased participation in socially expected life roles and activities—such as being a student, worker, friend, community member, patient, spouse, partner, or parent.

Socially expected activities may also include engaging in social activities, using public resources such as transportation and libraries, moving about within communities, receiving adequate health care, having relationships, and enjoying other day-to-day activities.

Disability Inclusion and the Health of People with Disabilities

Disability inclusion allows for people with disabilities to take advantage of the benefits of the same health promotion and prevention activities experienced by people who do not have a disability. Examples of these activities include:

Education and counselling programs that promote physical activity, improve nutrition or reduce the use of tobacco, alcohol or drugs; and

Blood pressure and cholesterol assessment during annual health exams, and screening for illnesses such as cancer, diabetes, and heart disease.

Including people with disabilities in these activities begins with identifying and eliminating barriers to their participation.

What is identified is absolute.

It may be an inconvenient Truth but it's the facts.

And facts don't lie I'm saying here.

I am hated on and I am continuously dealing with elements of what is a crime in my life.

That I identify as a targeted individual of gang stalking.

That is a crime.

Law

Fact Checked

What Is Gang Stalking?

Maggie J. Hall

Last Modified Date: February 17, 2023

Gang **stalking** refers to **harassment** and intimidation tactics used by a group of individuals against another person or toward a smaller group of people. People may initiate this type of civil offense because they are intolerant of another person for numerous reasons, which might include differing beliefs or lifestyles, jealousy, or racial prejudice. Stalkers generally design the covert methods used for **psychological harassment** to exact revenge, coerce silence, or cast out persons having opposing views. While gang stalking is considered a misdemeanor in some states, the offense carries **felony** penalties in others.

I have an unusual condition that my location that I'm currently at has a difficult acknowledging these facts among our community.

That's not unusual I should post I would say pervasively unusual.

So far that it's unusual it actually has a specific Reddit post. This was authored by some other person in our community.

BudRoses1y

Join

San Bernardino Police Department Allows Gang Stalking

San Bernardino Police Department Allows Gang Stalking!! They have done nothing about me being stalked and harassed. WITH PROOF!! 6 police reports and nothing!!

Furthermore....

A year ago February of last year, one of the former department of corrections parole officers for the city of San Bernardino appeared before the city council meeting.

He was there to address gang stalking.

So in essence one of their own addressing his need to appear before the city council meeting.

Joseph Mora, former corrections department parole officer for the San Bernardino Police department.

Coverage mention In the San Bernardino Sun,

<https://www.sbsun.com/2022/02/03/san-bernardino-council-continues-squeezing-mayors-role/>

At the very last two paragraphs of the article.

One speaker who called San Bernardino “a diamond in the rough” went on to slag it off, saying all its neighbors “are doing better than us” — including “Colton, for god’s sake.”

Another speaker brought up a wide range of matters in his three minutes. His son has joined the Marines, an intersection is presenting a problem, his family is subjected to “organized gang stalking” by an ex-probation officer, and finally, “happy Lunar New Year.”

You should actually open it up and listen to what he said about people breaking into his house.

You would think a former parole officer would be able to link to the law enforcement to prevent people from breaking into his house.

Something severely wrong here something severely wrong

Absolutely nothing can be done that can penetrate the wall that is surrounding me of an informational quarantine to form an understanding outside of me.

This matter is self-evident.

Every piece of my effort that I try to put this out into the view of others is pushed right into the gutter. By technology adaptive filtering and other content suppression technology that is active violating my rights.

An informational quarantine is what I am suffering under. And illegally imposed punitive measures outside of any kind of due process. A jail. A prison.

A technology imposed content suppression informational quarantine is what I am suffering under.

The convention for the rights of persons with disabilities was signed into action in the United States by the Barack Obama in 2009.

I just don't know how to come up with some sort of significance.

I have no significance.

You all treat me like shit!

Not a single word back that a human is caring to receive my communication and respond to me professionally.

The world of our communications is distracted somehow that I can't get through the static.

And so I must have to die.

Die from not having treatment in HIV care, adequate to the circumstances.

And so there have been two soundcloud entries of spoken voice presentation.

And I'm not keeping this quiet.

I don't want to put my face upon some sort of presentation out there on YouTube or something I don't need that. I don't want that I don't want the celebrity. It would ruin my life. I deserve to have my life back and maintain my anonymity of walking among our crowd of our public.

You all forced me to be something that I'm not. I'm not going to survive this I'm going to die.

The fault for that it's yours. Responsibility to fix this is yours not mine.

If nobody is willing to step forward and stand on my side for a change. And speak for me for a change. And speak for the truth for a change. I might as well keep it suicide.

In the attached images there is actual 911 text interface. 911 services are not available to persons who are targeted individuals of gangstalking.

That's just a matter of fact and the audio that I have on soundcloud proves it.
